

**A highly innovative machinery approach to beverage packaging, ClipCombo™ offers beverage makers the ability to run multiple fiber-based multipack styles across the same machine. Delivering real value and flexibility to meet today's and tomorrow's needs, machine options are available for either cans or PET bottles, offering multiple combinations.**

**A proven technology concept, ClipCombo™ runs at high speeds, no matter the type of pack style being run, with easy and quick changeovers.**

#### SUSTAINABILITY

- Broadens the range of options for beverage makers seeking sustainable, recyclable fiber-based packaging, eliminating the need for plastic
- Packs are made from plant-based fiber from sustainable sources

#### OPERATIONAL EFFICIENCY

- Runs both premium and standard pack styles with a single machine
- Reduces need for space and labor
- High speeds of up to 400 packs per minute (dependent on application and configuration)
- Fast, easy changeovers

#### FLEXIBILITY

- Pack premium and standard multipack styles on one machine for brand or range differentiation
- Choose the machinery solution for PET bottle multipacks or for can multipacks
- Ultimate machine flexibility combined with your choice of tried, tested and trusted packaging

## ClipCombo™ for Cans

- A full range of plastic replacement clip solutions for high speed beverage lines to meet any variety of marketing and distribution requirements
- Combines premium and standard clip-style multipacks for cans in one flexible machinery solution
- Combines KeelClip™ with EnviroClip™, or GripClip™ with EnviroClip™ for the ultimate sustainable packaging solution for can multipacks

**KeelClip™**

**GripClip™**

**EnviroClip™**

## ClipCombo™ for PET Bottles

- Combines premium and standard clip-style multipacks for PET bottles in one flexible machinery solution
- Combines Cap-It™ and EnviroClip™ packs for PET bottles with round or square necks
- A proven technology concept stemming from the Cap-It™ G3 equipment, the ClipCombo™ runs at high-speeds, no matter the type of pack style, with easy and quick changeovers

**CAP-IT™**
