INTERNATIONAL, INC.

Poly Coated Food Trays

Features

Our food trays come in a variety of sizes designed to resist moisture and grease thereby eliminating the need for a tray liner. The red plaid and plain trays are made from poly-coated virgin SBS (Solid Bleached Sulfate) board while the brown trays are manufactured on unbleached poly-coated virgin Kraft board.

Choose the crisp, clean look of red plaid and plain or go the natural looking route with the brown Kraft tray. Whatever your needs, you will get a high performing, economical food tray for your product.

Uses

Our poly-coated food trays are used at meat counters, deli's, schools/cafeterias, stadiums, food trucks and other quick serve restaurants and venues. From packaging raw meats to use as a takeout carton for chicken, sandwiches, fries, salads, and an endless variety of fried foods and appetizers, these trays are versatile and ready to ship.

Red Plaid Trays

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Velton Poly Coated Food Utility Trays

Features

Velton trays are manufactured on SBS (Solid Bleached Sulfate) poly-coated board for grease and moisture resistance and are suitable for microwave reheating. These economical trays eliminate the need for tray liners.

Uses

Available in five sizes, these small trays are excellent for kitchen food preparation and portion control. In addition, they can be used for french fries, and an endless variety of fried foods and appetizers at deli counters, restaurants, school and university cafeterias.

Velton Utility Trays

Extra Large U.T.	644	5.75 x 8.25 x .880	8/125	33.60	3.336	15

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Features

EconoPaxx™ is made with paperboard that uses 100% recycled paper fibers and is FSC-recycled certified. EconoPaxx™ containers are available in a wide variety of materials designed to meet your specific requirements including poly laminate materials that provide the maximum grease and moisture barrier.

EconoPaxx™ containers offer a high quality, environmentally responsible packaging solution that meets all foodservice safety requirements. Each EconoPaxx™ container carries a sustainability message on the package to assure your customers that you are using a sustainable packaging option.

Uses

All EconoPaxx™ containers can be used interchangeably for both hot and cold items including salads, pasta, wings, and sandwiches to name a few. The possibilities are endless. Because the containers can be used interchangeably, the number of sku's that need to be stocked in the back of the storeroom decreases.

EconoPaxx™

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Takeout Pails

Features

Available in three of the most popular sizes, our takeout pails are manufactured on SBS (Solid Bleached Sulfate) and coated with half mil poly on the inside to prevent liquid and grease soak-through. Though not leakproof at the opening, the one piece web design prevents leakage through the bottom and sides. The microwave-safe construction and material is perfect for hot or cold foods. Don't want to eat from the pail and don't have a plate handy? Open and flatten the pail for a "plate" that is perfectly sized for the contents.

Uses

Our takeout pails are perfect for leftovers after a restaurant meal or as a vehicle for quick-serve take home foods such as fried shrimp, chicken wings or bites. A multi-use package, the pails are great for catered events whether using them to hold party favors or as an alternative gift container. Bakeries and craft stores will find our takeout pails are a hit for small baked goods or as containers to separate crafting supplies such as beads. The possibilities are endless.

Pails

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Fast Food / Deli Takeout Containers

Features

From fast food carryout to deli operations, our food boxes provide the convenience, protection and presentation your customers expect. Tuck top cartons with automatic bottoms feature a tuck lid with a “lock”. Fast top styles snap open quickly for filling and close by locking the top into the box ends. Handled boxes are ideal for larger portion take out orders that require carton strength and french fry boxes are offered in three popular sizes for a variety of fried foods.

Uses

The snack and dinner sized tuck top and fast top cartons are perfect for 2 pc. to 4 pc. individual meals or multi-piece chicken tenders. Handle top cartons are made to withstand the weight of 5 pc. to 16 pc. chicken take out while the corrugated tailgate box holds up to a 100 pc. chicken take out or is perfect for holiday meals from the deli.

Carryout Trays & Cup Carriers

Features

Carryout trays come in a variety of two and four cup sizes with ample room for sandwiches, fries and other food items. Handled drink carriers won't rip or tip over due to their superior wet strength. Cup carriers feature deep compartments to hold large drinks with handy push-in straps to secure smaller drinks.

Uses

Our food trays and drink carriers are convenient, quick serve containers for food trucks and other similar applications. Entertainment facilities including movie theaters, stadiums, concert venues, and amusement parks will find our containers are a quick and easy way to provide prompt service to large crowds.

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Hot Dog Containers

Features

Our hot dog trays are formed for stability and designed to lock for secure carrying. They are nested for space savings on the counter and in the storeroom. Our two piece tray can serve as two sku's, utilizing one piece for in-store dining and two pieces for on-the-go lunch or dinner. Both sizes are easily customized with your brand and graphics.

Uses

Our hot dog trays can be utilized in school cafeterias, quick-serve restaurants, sporting/entertainment events, amusement parks, gas station restaurants and by street vendors. The trays have uses well beyond hot dogs and are limited by your imagination. French fries, pretzels, and tater tots are just a few items that will fit well in the container.

Hot Dog Trays

Description	Item No.	Dimensions	Case Pack	Case Wt.	Case Cube	Pallet	Suggested Use

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Pizza Containers

Features

Our pizza containers feature fast setup with locking mechanisms on the single slice and pizza clamshell models while the rigid structure protects the contents from touching the lid. The single slice pizza carton has a tear-away lid, turning the container into an eating tray for convenience. Manufactured on virgin SBS paper, the single slice and pizza clamshell offers superior stiffness and resists tearing while the pizza wedge is made of coated recycled paperboard and provides on the go convenience.

Uses

Our single slice pizza cartons are designed to fit a slice that is 1/8 of a 14" to 18" pizza. Great for deli's, pizza houses, street vendors, stadiums and a host of fast food applications.

Single Slice Pizza

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

Popcorn Boxes, Tubs and Scoops

Features

An American original, our classic popcorn boxes feature automatic bottom setup with one size sporting a handled top for take-home sales. The popular scoop style has an open top for fast fill and serve while our popcorn tubs are an economical alternative to the round popcorn tubs, and perfect for buttered popcorn. Because popcorn is purchased unpopped by weight and sold popped by volume, we print weight and cubic inch volume on our boxes, though the exact capacity depends on popcorn expansion and amount of popping oil used.

Uses

Our popcorn boxes are used in stadiums, movie theaters, schools, concert venues, and will fit both small and large needs. We maintain a complete stock line for immediate shipment.

Plain White Bakery Boxes Cake Pads, Circles & Trays

Features

Our plain white windowed bakery cartons combine quality with variety and affordability. The absence of print allows the carton to be customized. Add a label, ink a design or request an estimate to have your design printed in-house. Available in a wide variety of sizes, our plain white line has a box to fit most any of your baked goods needs. Our industry standard cake pads and circles are grease proof and help protect your products during transport and storage while enhancing visual appeal with scalloped edges.

Uses

The Plain White Bakery and cake pad lines are ideal for local bakeries as well as supermarket chains, large and small, self-serve and over the counter.

Beer Carriers

Features

Beer carriers are made from sustainable paperboard that is reusable and recyclable. Carriers provide a durable and convenient way to transport beer. With a lower cost than standard woven bags, these carriers offer consumers a more premium beer buying experience than putting beer in paper bags. Our carriers are designed to hold a six pack of assorted, individually sold beer selected by the consumer and feature sturdy handles for easy carrying.

Uses

Ideal for grocery, supermarket and retail sales of multiple beer bottles, these carriers can be customized for your specific needs including custom printing for store branding opportunities. Carriers provide the consumer a way to transport their beer and from the store to home in a paperboard carrier that stands up well and doesn't tip over in the car or in cabinets.

Beer Carriers

Description	Dimensions	Cell Size	Case Pack	Case Wt.	Case Cube	Pallet	Suggested Use
6 pack Heritage Basket Carrier	7.75 x 5.187 x 7.344	2.594	180	35	1.68	48	Up to 6 bottles of beer

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.

IntegraFlex™

Features

IntegraFlex™ incorporates the best features of both a folding carton and flexible package in a cost effective and more efficient solution that provides a better on-the-go consumer experience. IntegraFlex™ allows the consumer to enjoy food from a carton/bag, a pouch, or a wrapper. Quick to prep and easy to fill IntegraFlex™ can be printed for branding with high resolution graphics using a variety of materials, coatings, and film laminations.

Uses

With its unique structure that allows for easier consumption of product, IntegraFlex™ is ideal for a variety of uses. The Collapsible Cup stands on its own for snacks and food items. The Ready Pouch doubles as product packaging and a serving container. The Handheld Wrap can be used for all sizes of sandwiches/wraps and has the flexibility to transform into a placemat. IntegraFlex™ offers a unique on-the-go dining experience.

IntegraFlex™ is a future technology in development stage. Contact your sales representative for more information.

Our food containers are environmentally sound and meet the requirements for all mandatory compliance programs.
