INTERNATIONAL

Celebrate your success with the Champagne stock design from Graphic Packaging International. The Champagne product line is designed to work with any retail or business environment with soft, sophisticated colors and neutral design.

The subtle color shifts among the hot cups, cold cups and food packaging to provide a consistent look. The warm neutral color tone will feel inviting to your guests while complementing rather than competing with your overall decor.

You can feel good about using Champagne because every cup, plate and container is made from paper that meets the Sustainable Forestry Initiative® Certified Sourcing Standard, ensuring responsible forestry practices are followed.
